In the reflective process, there must be a room for _____. Failure

Which of the following is NOT a skill which underpins reflexivity? Existential phenomenology

Which one of the following repertoire of teaching is developed through reflection in the classroom?

Strategies

**Reflexivity for teachers means NOT only engaging both in a personal reflection but also -
-----.**

which of the following is main characteristic of informal reflection self questioning

Greenway's 3-stage model is known as: plan do review model

all ethical concerns are generated by reflective practice process except right to speak

Which of the following assumptions does not underlie action research? teachers and other education professionals can and will engage in systematic research only if they are given adequate time and additional pay

which one of the following is the main characteristic of formal reflection theory based

Which one of the following learners are developed by the reflective teachers? Reflective

_____ process allows colleagues and others to share ideas and issues.
Participatory

which one of the following is the name of the schon's book 1983 Reflective practitioner

Which is the third component of underpinning reflexivity critical thinking

Gibbs reflective cycle 1988 the term "what happened" is used in: analysis

reflective practice leads to the following except leads to enquiry inform practice

Which element is usually not represented in reflected practice of novice teachers to reflect critically

we propose a framework based on different kinds of critical thinking: Halpain

Schon theory does not acknowledge the role of individual

inference is defined as the ability to determine an accurate conclusion from given information

Critical thinking moves us away from
rash conclusion

All are the areas of concern of reflective practice except creative

Which type of reflection enables us to take control of one's development dialogic

which one of the following is the main characteristic formal of reflection
theory based

which one of these element encounter with the elements of step 3 in the model of critical
thinking answer practice before assess

which one of the following is ensured about the nature of teaching and learning in
reflective practice answer experiment based

which one of the following allows teachers to analyse what they have been learned and how
they learned to take control of their development?

reflective journal

**in what model the action-oriented level of reflection is referred to as
now word**

Saying things as yes or no with no subtitles is referred to critical thinkers

the ability to think clearly, logically and rationally is called answer critical thinking

Reflective practice is about learning from answer acquired experience

Malia is a problem student is an example of statement imprecise

**Which is the most complex aspect of Gor and Zeichner model?
Social reconstructionist critical reflection**

__ Feedback raises questions about why the teacher took particular actions. Cool

what is the question/analysis in reflective cycle asking many question

one circle in the Venn diagram represents what kind of experience concrete

Try out new practices or with settings that work in contrasting ways, is known as test ideas

**which type of question is a sample of analyse phase answer why certain things happen in
a particular way**

**loss of job, divorce, marriage, back to school, or moving to a new culture are included in
a disorienting dilemma**

Which type of learning is acquired by practice of formal reflection conscious

**One's Assumptions, values and belief create their professional identity
Critical thinking is important because it answer helps to take problems quickly**

Comprehensive account of the situation either verbally or in writing is term as description

**which one of the following helps to identify the difference between novice and expert
teacher answer developmental rediness**

3. Reflective practice has been embraced by teachers, researchers, teacher and educator since last two decades

4. During the last, the slogan of reflective teaching has been embraced by teachers, teacher educators and educational researchers all over the world. two decades

Topic # 04

1. The name of the Schon (1983) book is The reflective practitioner

2. Schon (1983) coined the term reflective practice in his book The Reflective Practitioner.

3. What does a lack of conceptual clarity mean? the educational community has different interpretations of reflection

4. According to Sandwell's view, giving emphasis on only individual reflection

leads to..... **ignoring accounts of other within the community within which reflection occurs**

5. In Sandwell's views, an emphasis on individual reflection.....fails to consider the accounts of other within the community within which reflection occurs.

Topic # 05

1. In reflective practice the major focus of teacher must not on "why things are happening "but on.....what has happened?

Topic # 07

1. According to schon reflection in action and reflection on action all the mechanism reflective practitioners use that permit them tocontinually develop and learn

Topic # 08

1. critical reflection facilitiestransformational learning

Topic # 15

The most basic level of reflection is called as.....**Technical**

Teacher reflect upon the larger context of education particularly with ethical and moral issues is an attribute of..... **reflection**

The reflection which focuses on the investigating questions and clarifying the assumptions behind teaching activities is called as **Practical**

Topic # 18

Reflective writing focuses on..... **Specific details within an experience**

Topic # 20

1. Re-theorising is the means by which Reflective PractitionersCritically examine practice and theories in the light of theories

Topic # 23

1. In a school a critical friend can be all of the following except **A new teacher who started working in the school shortly after you**

Topic # 29

1. One principle of reflection in the Roth Model is that **It uses 'what', 'why' and 'how' questions**

Topic # 32

1. 'Looking out' is a combination of **A range of viewpoints about experiences**

Topic # 36

1. Which model encourages the teachers to think about a given situation and establish and action plan for dealing **Gibbs reflective cycle**

Topic # 42

1. The difference between novice and expert teachers reflection practice is clearly visible in **Developmental Readiness**

2. According to Ash and Moore new teachers are **not reflect critically and constructively**

3. Ash and Moore (2002) say that new teachers can choose **not to reflect constructively and critically,**

Topic # 43

Which one is called an example of critical thinking? **Questioning**

Topic # 44

Being open-minded so that we evaluate all reasonable inferences

Topic # 45

Inference is defined as the ability to **understand the information**

Topic # 46

1. Unreflective thinkers.....are largely unaware of the determining role that thinking is playing in their lives

2. Unreflective thinker is..... Unaware of the determining role of thinking

Topic # 49

1. The cognitive process is characterized as essential to Higher order thinking

Topic # 50

2. Clarify is defined as..... State one point at a time.

Topic # 51

1. In 5-step model of critical thinking, the first step is.....Determine goals/objectives

Topic # 55

1. Facilitates synergistic thinking- the interplay between.....factual and conceptual levels of thinking.

2. Synergistic thinking is a combination of following thinking levels.....factual and conceptual thinking

Topic # 56

1. According to Dewey Schon and others concepts are..... tools for coping with the world and for solving problemscognitive

Topic # 57

1. The process of concept formation has three important phases Perception ,Abstraction ,Generalization

Topic # 58

1. Conceptual innovation is but deeper. like reframing

Topic # 59

1. Single loop learning has strategies **Rigid strategies**

Topic # 65

1. A limitation of self reflection are **The difference between perception and reality**

Topic # 68

1. Professional competencies may be developed by **understanding and knowledge of social and policy contexts for education** **Topic #**

71

1.....competence (making sound judgments in work-related situations)
Values/ethical

2. .making sound judgments in work related situation is an attribute of
competence **Values/ethical**

Topic # 89

Problem-solving, brainstorming, hypothesizing, investigating, experimenting, Socratic method, online searching are belongs toMultiple intelligence theory
Logical

Topic # 94

quadrant of jo-Hari windows represent the things that you are not aware of but are known by others.....**Blind area**

Topic # 98

Being able to do something skillfully without having to consider everything closely
..... **Unconscious competence**

Topic # 99

1. Having subject specialist knowledge is called.....**Professionalism**

Topic # 111

1. Reflective practitioner has two levels. The names of these two levels are **action level and cognitive level** Topic

115

1. Reframing of beliefs is a four-step process. The order of determination of these beliefs is**core belief -supporting beliefs -opposites of supporting belief - reframed core belief**

Topic # 118

1. Epistemic stances..... **Changes with the experiences**

Topic # 123

1. Emancipatory phase of critical reflective enquiry helps toin the class.
Encourage different ways of thinking

Topic # 240
