

Z00510 QUIZE 1 , FALL 2021

LION GROUP OF ZOOLOGIST

SIR ARSLAN

1. Deficiency of in a ration of laying hens causes goiter _____
iodine.
2. Animal proteins are good sources of vitamin _____ **B12.**
3. Inflammation of tongue and mouth cavity (black tongue) caused by _____
niacin.
4. Commercial feeds for ... are available in the form of s mash pellets or crumbles ____ **poultry**
5. To Get maximum economic return from laying hen flock , a feed efficiency of Kg of feed per dozen of ____ **1.6---1.8.**
6. Vitamin required for bone formation egg production , reproduction & prevention of rickets in poultry ____ **vitamin D.**
7. Deficiency of causes perosis with slipped tendon in poultry ____ **Mn.**
8. In feeding of broilers , ration contains % protein ____ **22-24.**
9. Deficiency of vitamin .. delay clotting time of blood & produce serious hemorrhage in poultry ____ **K.**
10. Sources of ... in poultry diets are ground oyster shell , limestone , and di calcium phosphate ____ **Ca.**
11. Laying hens (2kg wt) requires ... kcal energy for their production maintenance ____ **220.**
12. Value for feed conversion of broilers ____ **2.2**
13. The most common grain used in formulating poultry diets ____ **corn.**
14. Chickens bred for meat production grow And achieve adult stage much early. ____ **rapidly.**
15. Which is not calcium sources of poultry diets ____ **feather meal.**
16. Inorganic ... is supplied by bone meal , di calcium phosphate and rock phosphate in poultry feeds. ____ **phosphate.**
17. Laying hens require higher content of ... in their feed in very hot weather than cold. ____ **vit.A**
18. is the first limiting amino acid for egg production in hens. ____
methionine.

19. Young chick require more niacin than Due to less bacterial activity
_____ **adult.**

20. Deficiency of _____ in the ration of laying hens causes goiter .__ **iodine.**

21. Is the most common grain used in formulating poultry feeds. _____
corn.

22. In poultry emaciation is caused by the deficiency of _____ **Vitamin**
A

23. Animal protein sources are more variation in their amino acids than
_____ protein. _____ **plant.**

24. Needed for egg production & hatchability _____ **Mn.**

25. is the first limiting AA for egg production in laying hens. _____
methionine.
