

A Bar chart which represents continuous data is called

Select the correct option

☐	None of these
☐	a pie chart
☐	a discrete chart
☒	a histogram

In statistics, a population consists of:

Select the correct option

- | | |
|----------------------------------|---|
| ☐ | none of the above |
| ☒ | All subjects or objects whose characteristics are being studied |
| ☐ | All people living in a country |
| ☐ | All people living in the area under study |

In inferential statistics, we study

Select the correct option

- ☐ The methods to make decisions about the population based on sample results
- ☐ How a sample is obtained from a population
- ☐ How to make decisions about mean, median, or mode
- ☒ none of the above

Question 10 of 10 (Start time: 10:00 PM, 20 July 2020)

If the smallest observation in a data is decreased, the average which is not affected is:

Select the correct option

☐	Mode
☐	Harmonic mean
☒	Median
☐	Mean

Question 10 of 10 (Start timer) Received 100%, 20 July 2020

If the smallest observation in a data is decreased, the average which is not affected is:

Select the correct option

☐	Mode
☐	Harmonic mean
☒	Median
☐	Mean

The number of accidents in a city during 2020 is

Select the correct option

☐	constant
☒	Discrete variable
☐	Continuous variable
☐	Qualitative variable

Cumulative frequency is the frequency _____ than the upper class boundary of a class?

Select the correct option

☒	Less
☐	Greater
☐	Distribution
☐	Curve

A graph of cumulative frequency distribution is called -----?

Select the correct option

☐	None of these
☐	Histogram
☐	Frequency Polgon
☒	Ogive
