

Question # 1 of 30 (Start time: 08:31:52 PM, 29 December 2020)

A _____ is a type of fault or break in the earth crust in which there has been relative movement.

Select the correct option

Sand fault

thrust fault

normal fault

none of the above

Question # 1 of 30 (Start time: 08:31:52 PM, 29 December 2020)

A _____ is a type of fault or break in the earth crust in which there has been relative movement.

Select the correct option

Sand fault

thrust fault

normal fault

none of the above

Question # 2 of 30 (Start time: 08:33:57 PM, 29 December 2020)

Rocks formed from layered accumulation of mineral particles derived mostly by weathering and erosion of rocks.

Select the correct option

Igneous rock

Sedimentary rocks

Metamorphic Rocks

Small rocks

Question # 3 of 30 (Start time: 08:35:36 PM, 29 December 2020)

_____ waves are the result of an earthquake.

Select the correct option

non-seismic waves

Seismic waves

Contractual waves

none of the above

Question # 4 of 30 (Start time: 08:36:58 PM, 29 December 2020)

There are _____ types of land forms

Select the correct option

1

2

3

4

Question # 5 of 30 (Start time: 08:38:26 PM, 29 December 2020)

Velocity tends to decrease with depth.

Select the correct option

true

false

When cylindrical projection is unfolded into the flat surface its gives a:

▶ Select the correct option

Square shape

Rectangular shape

Hexagon shape

Circular shape

Question # 6 of 30 (Start time: 08:39:08 PM, 29 December 2020)

When cylindrical projection is unfolded into the flat surface its gives a:

Select the correct option

Square shape

Rectangular shape

Hexagon shape

Circular shape

Question # 7 of 30 (Start time: 08:40:51 PM, 29 December 2020)

Culture-Environment Tradition includes:

Select the correct option

Description of regions

Earth - Sun interaction

Spatial patterns

Natural hazards

Question # 8 of 30 (Start time: 08:42:26 PM, 29 December 2020)

These are undertaken to produce plans of property boundaries for legal purposes

Select the correct option

Topographic surveys

Engineering Surveys

Cadastral Surveys

Triangular survey

Question # 9 of 30 (Start time: 08:43:38 PM, 29 December 2020)

-----field work means the personal observation about a specific phenomenon either that is physical in nature or human by nature.

Select the correct option

☒

Geographical

☐

Human

☐

Physical

☐

Geological

Question # 10 of 30 (Start time: 08:44:12 PM, 29 December 2020)

T

_____ shell like envelope or shield composed of gases surrounding the planet Earth

Select the correct option

Atmosphere

Hydrosphere

Biosphere

Lithosphere

Question # 11 of 30 (Start time: 08:44:33 PM, 29 December 2020)

There are 5 types of forces which play a significant role in the formation of landforms.

Select the correct option

true

false

Question # 12 of 30 (Start time: 08:44:58 PM, 29 December 2020)

Tectonic plates moving away from each other are called:

Select the correct option

Diversion

Conversion

Deviation

Lateral plate movement

Question # 13 of 30 (Start time: 08:46:43 PM, 29 December 2020)

The main contribution of Aristotle regarding geography was:

Select the correct option

Inducting reasoning

Deductive reasoning

Mathematical traditions

Literacy tradition

Question # 14 of 30 (Start time: 08:48:24 PM, 29 December 2020)

This type of metamorphism occur beneath the surface of Earth where magma comes in contact with the surrounding rocks and altered the chemical or physical characteristics:

Select the correct option

☒

Contact Metamorphism

☐

Regional Metamorphism

☐

National Metamorphism

☐

None of the above

Question # 15 of 30 (Start time: 08:49:37 PM, 29 December 2020)

GIS stands for.....?

Select the correct option

Geographic Information System

Global information system

Both

None

Question # 16 of 30 (Start time: 08:50:07 PM, 29 December 2020)

Earth revolution takes:

Select the correct option

365 days

360.24 days

360 days

365.24 days

Question # 17 of 30 (Start time: 08:51:06 PM, 29 December 2020)

The pioneer of geography was:

Select the correct option

Richard Hartshorne

Alexander Von Humboldt

Karl Ritter

Eratosthenes

Question # 18 of 30 (Start time: 08:52:21 PM, 29 December 2020)

Metamorphic rocks compose _____ of the crust by volume.

Select the correct option

26.4%

27.4%

28.4%

29.4%

Question # 19 of 30 (Start time: 08:52:55 PM, 29 December 2020)

Mount Rainier, Mount Fuji, and Mount Cotopaxi are the examples of _____ volcanoes.

Select the correct option

Shield volcano

Composite volcanoes

Clara volcanoes

Cinder Cone Volcanoes

Question # 20 of 30 (Start time: 08:54:37 PM, 29 December 2020)

Different physical or human features are presented on map by different:

Select the correct option

Colors

Texture

Points

Shape

Question # 21 of 30 (Start time: 08:55:14 PM, 29 December 2020)

The imaginary lines of the ground joining the adjacent places at the same height above sea level:

Select the correct option

Contours

Hachures

Spot-heights

Hill shading

Question # 22 of 30 (Start time: 08:55:40 PM, 29 December 2020)

Maps show only the means of communication as roads, railway, airways, etc are called:

Select the correct option

Distributional maps

Economic maps

Communication maps

Choropleth maps

Question # 23 of 30 (Start time: 08:56:39 PM, 29 December 2020)

Thin lava pours out of _____ volcanoes and covers a great distance.

Select the correct option

Shield volcano

Composite volcanoes

Clara volcanoes

Cinder Cone Volcanoes

Question # 24 of 30 (Start time: 08:57:43 PM, 29 December 2020)

The word geography was derived from:

Select the correct option

Latin

Roman

Greek

Arabic

Question # 25 of 30 (Start time: 08:58:28 PM, 29 December 2020)

Triangular surveys are done by certain techniques which are:

Select the correct option

Chain and tape survey

Plane table survey

Theodolite survey

All of above

Question # 26 of 30 (Start time: 08:59:49 PM, 29 December 2020)

The transform plates are mostly on the small tectonic plates.

Select the correct option

true

false

Question # 27 of 30 (Start time: 09:00:14 PM, 29 December 2020)

Conical projection is used for:

Select the correct option

Middle - latitude areas

Higher - latitude areas

Lower - latitude areas

None of above

Question # 28 of 30 (Start time: 09:00:47 PM, 29 December 2020)

Surface waves travel faster than seismic waves

Select the correct option

true

false

Question # 29 of 30 (Start time: 09:02:36 PM, 29 December 2020)

_____ is the outermost or peripheral area of biosphere reserve

Select the correct option

Core Zone

Buffer zone

Manipulation zone

None of above

Question # 30 of 30 (Start time: 09:03:10 PM, 29 December 2020)

Which famous mathematician challenged the spherical shape of the Earth:

Select the correct option

McLaren

Jacobs a Henry's

Newton

Eratosthenes
